### Office Action Summary

**Application No.**

10/534,268

**Applicant(s)**

BABARINA ET AL.

**Examiner**

Karen A. Canella

**Art Unit**

1643

**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on 12 January 2010.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

Claim 3 has been canceled. Claims 1, 2, 4-8 and 10 have been amended. Claims 1, 2, 4-8 and 10 are pending and under consideration.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection of claim 10 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is maintained for reasons of record.

Claim 10 is vague and indefinite for dependence on a canceled claim.

Applicant argues that the claim has been amended to state that the method is carried out in a multichannel instrument. However, this is not germane to the rejection which states that the claim is vague and indefinite because it depends on canceled claim 9.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The rejection of claims 1 and 2 under 35 U.S.C. 102(b) as being anticipated by Lee et al (WO96/40212) as evidenced by Invitrogen Product Data Sheet, downloaded from the Web on July 20, 2009, is maintained for reasons of record..

Claim 1 is drawn to a medium comprising essential amino acids, vitamins, salts and carbon donors characterized in that the medium comprises from about 0.1 to 1 mM buffer of pH 7-7.4; 5% to 20% FCS by volume; 4-6 g/l glucose and 2 to 5 mM glutamine, wherein the medium does not contain a carbon source other than glucose and glutamine. Claim 2 embodies the medium of claim 1, characterized in that it comprises phosphate buffer.

It is noted that the recitation of a medium “for measuring the efficacy of a tumor therapy on single cell suspensions” has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

Lee et al disclose the culture of lymphoblastoid cell lines in RPMI with L-glutamine and 15% FCS, and the culture of adherent cell lines in Dulbecco's modified Eagle Medium with high glucose, L-glutamine and 15%FCS, without pyruvate (page 41, line 33 to page 42, line 4).

The Product Data sheet indicates that DMEM with high glucose, L-glutamine minus sodium pyruvate comprises 4.5 g/L glucose, 4mM glutamine and 0.9mM phosphate which meets the limitations of the instant claims.

Applicant argues that the claim now recites 8 to 12% serum. This has been considered but not found persuasive. Claim 1 still persists in reciting 5 to 20% serum.

Claims 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
